**JESSE SALINAS**  
CLERK-RECORDER

## Memorandum

DATE: June 30, 2021

SUBJECT: Important Notice - Recording Fee increase

Effective July 1, 2021, the recording fee for the first page of each document will increase by \$1.00. The new fee will be: \$15.00 for the 1st page and \$3.00 for each additional page.

The Board of Supervisors passed resolution 20-90 in August 2020, pursuant to California Government Code section 27390, authorizing the County Recorder to establish an electronic recording delivery system for the recording of specified digitized electronic records. This authorizes the Yolo County Recorder to impose a fee in an amount, not to exceed one dollar (\$1.00), for each real property instrument that is recorded. Funds collected, pursuant to said legislation, must be used for the sole purpose of supporting the Electronic Recording Delivery Act of 2004. The fee collected is to be used for implementation and participation in electronic recording under the Electronic Recording Delivery Act of 2004.

Effective July 1, 2021, electronic recording is available in Yolo County in addition to recordings submitted via mail or in person. It is the goal of this office to offer the most convenient and efficient services available. If you have any questions or concerns, please let us know.
